Further Proceedings of the Episcopal Convention.

Discussion of the Report of the Commit tee on Church Canons

PHILADELPHIA, PA., Oct. 23 .- To-day's session of the general convention of the Protestant Episcopal church was opened with morning prayer by Rev. Henry Sansom, D. D., of Mississippi, and Rev. Chauncey B. Brow-ster, of Michigan. The benediction was pro-

nounced by the Right Rev. Bishop Hare, of south Dakota. The house of deputies was then called to order by the president. Mr. Littell, of Delaware, from the commit-tee, submitted a long list of trustees of the

general theological seminary to serve until October, 1884. The report was adopted. Rev. Dr. Abercrombie, of northern New Jersey, from the committee on memorials of deceased members, read memorials of Hon.
Enoch K. Mudge, of Massachusetts: Rev.
John Cotton Smith, D. D., of New York: Mr.
Josiah King, of Pittsburg, and Rev. William
Shelton, D. D., for over half a century rector
of a church at Buffalo, N. Y. The report was

Rev. Dr. Benedict, of southern Ohio, offered a resolution, that the house of bishops concurring, the sessions of the convention concurring, the sessions of the convention con-tinue for the purpose of considering the re-port of the joint committee on the book of common prayer as long as there shall be a quorum of both houses, or until the consid-eration of the report shall have been com-

Mr. Minor, of Connecticut, said it was a question whether the deputies should remain here three or four weeks longer, or whether the consideration should be closed now. He was opposed to making a single change in the

Objection being made the resolution was placed on the calendar.

Mr. Mills, of northern New Jersey, thought

the subject of the prayer book could be con-cluded at this session. He offered a resolu-tion that the general convention adjourn on Friday, Oct. 26. At his request, it was referred to the committee on unfinished business. Rev. Dr. McVickar, of Pennsylvania, from the committee on place of meeting of the next general convention, reported that there was a lack of cordiality in invitations from the large cities. The question of expense is a very serious one. If the expenses could be more equally divided the difficulty might be avoided.

He offered a resolution that the whole subject of the necessary expense of helding the general convention be referred to the commit-tee on expenses, with the request that they report as early as possible some scheme for more equally dividing the expense among the

ments to the constitution on the amendment to article 8 of the constitution, offered by Mr. Nash, of New York, relative to alterations in the book of common prayer, was then taken up. The committee reported adversely to the tentative use of any portion of the book. The report was adopted, and the committee discharged. The report from the same committee concurring with the house of bishops in substituting the words "house of deputies" for convention in certain places in article."

for convention in certain places in article 2 and 3 of the constitution was adopted.

The order of the day was then taken up, viz: Report No. 20, of the committee on canons, relating to the report of the special committee on the Sewanes conference with regard to the work among the calcord record. regard to the work among the colored people in the south. The committee reported that in their opinion legislation intended for good might operate for evil. Any legislation by the convention might be a cause of serious disaster. The church cannot too carefully avoid drawing lines of distinction between different classes. The report contained resolutions recommending that the board of managers of the missionary society be requested to appropriate as large an amount as possible to the missions of the church among

colored people.

The special committee on the Sewanes conference had reported recommending the adoption of a canon for the establishment of separate missionary organizations in the different dioceses, under direction of the Rev. Dr. Porter, of South Carolina, moved

as a substitute the report of the special committee. He said this question is generally treated as if it was entirely a southern one. tablish schismatic societies. are not willing to do our duty, how will we Christianize Africa. The census of 1880 shows that the population of the southern states was at that time 15,482,380; of these 9,555,000 were whites and 5,927,371 were colored persons. The baptized members of the church in that section number 300,000; of this number 270,030 are white and 30,000 colored. The number of communicants is 80,000, and of clergymen 800. The church in the south is stirring herself, but what is the church in the north doing with all her wealth. Before 1860 there were nearly 1,000,-000 of professed Christians among the colored people of the south.

The Methodists and Baptists have done a glorious work, and while we do so little we ought not to decry the work of others. In

ought not to decry the work of others. In the Episcopal church there are to-day in the south but eighty candidates and postulants to take up the work. If we are to do any ex-tensive work among the colored people, we must obtain large re-enforcements from the negroes themselves. There are but forty-six black and colored persons in the priesthood and the desconate. The colored people should be helped to educate their children, and they will respond as readily as any other people. will respond as readily as any other people. Too much, however, must not be expected of hem, but we should take into consideration heir surroundings. The colored man meets with the competition of the whites, and race prejudice at the north and south. It is the duty of the church to give aid to all who are fitting themselves to fill positions. The ex-ercise of practical common sense is as necessary as great learning. Some people say send to the negro lay readers or catechists. The negro feels that the catechist can do no better than he can.

Rev. Dr. Porter claimed that each separate Rev. Dr. Porter claimed that each separate congregation is a separate eccesiastical organization. The report of the special committee does not make it obligatory to form separate missionary organizations in any diocese, but gives permission to form such organizations. The missionary beard of the southern dioceses have so few men to work with that they cannot accomplish much. The speaker knew ten places where such missions could be established. Their duty would be also to seek out new candidates for the ministry. What has the Episcopal church with all her wealth done? What has she to show? The speaker cited a few cases, and claimed that very little is being done by the

Episcopal church for the colored people.

Rev. P. G. Robert, of Missouri, desired to thank the committee ou canons for what they have done. They had brought in resolutions full of sympathy. Those resolutions express the feeling of savey bishoe, unless, and leave the feeling of savey bishoe, unless the feeling of savey bishoe. full of sympathy. Those resolutions express
the feeling of every bishop, priest, and layman at the Sewanee conference. This is
the American Catholic church, and those in
the southern dioceses, as well as those in the
northern dioceses, know no color. There are
difficulties in the case. He did not wish the
general convention to assume the, power and
say to the different dioceses, You shall not
do this or that without our authority. There
is no need for it. The negroes have just so

do this or that without our authority. There is no need for it. The negroes have just so much religion in them as to say, We are not heathens, we believe in the Lord Jesus.

Rev. Mr. Robert said it seemed the worst incredulity to doubt that the church could go to the adults, as well as the children, of the colored people. Why not make the same requirements for the colored persons seeking the ministry, as for white persons. Rev. Dr. Goodwin, of Pennsylvania, was very glad to hear that selfish considerations had not Goodwin, of Pennsylvania, was very glad to hear that selfish considerations had not been appealed to. The point is, there are men perishing in the midst of us for lack of instruction and knowledge. Here they are, wounded and stripped of their raiment, and we are their neighbors. He rejoiced at the disposition shown to elevate the condition of the negro. In the church of Christ there is no caste, no color line. If the whole church, north and south, enters heartly upon this work it must be on this bas. We have nothing to do with the social part o, the question, but we must remember that the same system but we must remember that the same system on which the Beloved Disciple rested His head is ready to receive the lowliest negro in the United States.

Dr. Goodwing preferred the report of the

committee on canons. At the Divinity school, West Philadelphia, ten colored men have already been graduated, who have acquitted themselves most creditably, some of them being leaders in the class.

Mr. Fairbanks, of Florida, said the Seward conference had discussed the subject for several days. He stated that some of the southerners, in which number he was included, had always opposed class distinctions. In all parts of the south are now separate colored congregations. If the convention would not adopt a general canon on the subject, Mr. Fairbanks hoped the money would be given to carry on the work.

Rev. Dr. Gray, of Tennessee, said that six millions of people ask the convention to do something for the promotion of true religion and morality among them.

The canon offered as a substitute for the report of the committee on canons was not agreed to.

agreed to.

A message received from the house of bishops stated that they had receded from their former action, and had agreed to concur with the house of deputies relative to the

division of the diocese of North Carolina. The house of bishops informed the ho of deputies that they had accepted the resig-nation of Right Rev. Dr. Potter as secretary of the house, and had elected to fill the posi-tion the Rev. Dr. William Tallock, of Con-

necticut, Rev. William Upjohn, of Maine, from the committee on the consecration of bishops, re-ported favorably as to the nomination of Rev. W. D. Walker as bishop of north Dakota, and it was made the order of the day for 4:30

clock this afternoon.

The house then took a recess for one hour. The two houses met in the afternoon as the board of missions, the Right Rev. Bishop Lee in the chair. Mr. James M. Brown was selected treasurer of the Domestic and Foreign

Missionary society.

The bishop of Utah then took the chair, and the Right Rev. Bishop Donne, of Albany, presented the report of the Mexican commission, which stated that during 1881 increased dissatisfaction was felt as to the increased dissatisfaction was felt as to the conduct of affairs in Mexico. In October, 1882, the commission expressed to Bishop Riley in strong terms their opinion that the church should not be called on to support the church in Mexico until all the terms of the covenant had been met, and his presence was requested in New York. A communication was subsequently sent to Bishop Riley by Bishop Lee, in which he stated that it appeared to the commission that there had been an apparent want of open dealing with regard to the liturgy, and that actually its completion was being hindered. actually its completion was being hindered.

There had been also an apparent misappropriation of funds, and several congregations in Mexico have never received an episcopal visitation. No answer was received to this communication. A telegram

received to this communication. A telegram was subsequently sent requesting the presence of Bishop Riley in this city on the eighteenth instant. On the sixteenth an answer was received that Bishop Riley could not leave his work on such short notice. At a meeting of the Mexican commission it was concluded that the work could not be carried out under Bishop Riley, and on the nine-teenth instant he was requested to resign the work. An answer has since been received which seemed to imply that Riley had resigned. The report stated that the mission had for years been supported, in a great measure, from the bishop's own funds. There was no question with the commission as to the duty of continuing the reform payement. the duty of continuing the reform movement in Mexico, but the commission was not pre-pared to state what the method should be. A communication from the house of bishops

was read, stating that by a unanimous vote they had approved the action of the commission in requesting the resignation of the bish-ops of the valley of Mexico, and also recom-mending that mission work in Mexico be carried on.

carried on.

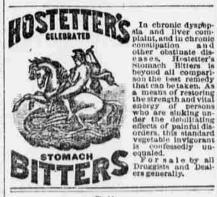

Rev. Dr. Fulton, of Missouri, said statements had been made that a covenant had been entered into with the church of Jesus in been entered into with the church of Jesus in Mexico. It was important to know with whom that covenant had been made. The general convention was the only body that could authorize such a covenant. These things touched faith, order and the sacraments, and sthe report showed that such covenants could not be safely made. We are lauded in this difficulty. The Mexican commission having the unanimous spprobation of the house of bishops has requested the bishop of the valley of Mexico to resign his commission. Now in whose hands is it to be placed? Bishop Riley is not within the jurisdiction of this church. He is the head of a symod of his own church. If he resigns, what then? We will have adrift in the world another detached bishop respon-
